Re: Request for "D" letter
South Avenue and Goethals Road North -
Staten Island, New York

Attention: Gordon Colvin
Regional Permit Administrator
61st Floor

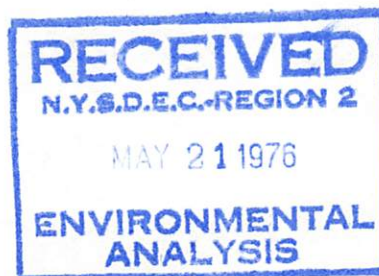

Gentlemen:

This office represents the owner of the subject property, copy of Carlton H. Ettlenger Survey No 62365 attached. Please note that a very small portion of the parcel is overgrown with fragmides. The survey is marked to indicate a limit of fill around the fragmides and further noted that no fill is to be placed within the fragmides area. It is requested that you review this site and survey and issue a "D" letter in order that the owner may proceed with development plans consistent with the zoning.

Very truly yours,

Carmine R. Procassini

Re: Report for "C" letter
- South Avenue and 100th
- Third Avenue and 100th
- East 100th Street, New York

Attention: Gordon Colvin
Regional Technical Administrator
81st Floor

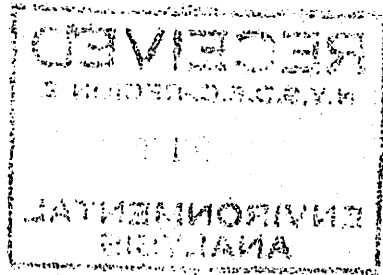

Enclosure:

This office requests the owner of the subject property, copy of Gordon M. Wellington Survey No. 0222-01-1000. Please note that a very small portion of the parcel is overlapped with the survey. The survey is marked to indicate a limit of title to which the title is noted that no title is to be placed within the boundaries of the survey and this title waiver may have been reviewed and approved with the owner in order that the owner may proceed with development plans consistent with the zoning.

Very truly yours,

WALTER MASTERS

Re: Submission of completed applications for two locations at South Avenue-Statens Island

Attention: Gordon Colvin
Regional Permit Administrator

Dear Mr. Colvin:

Reference is made to my discussions with Mr. Rasmussen of your staff concerning the applications for "D" letters at South Avenue and Amador Street, and South Avenue and Goethals Road North. In each case the land has been inspected by your department and fragmides, which touches the extremity of each property, has been located by field survey. In previous submissions, surveys indicating the extent of fragmides and a limit of fill, clear of the fragmides, have been transmitted.

Attached please find, in triplicate, completed applications for each site. The applications are being filed by this office. Under separate cover, authorization of the owner is being transmitted. It is requested that "D" letter permitting fill to be placed, as indicated on the previous submissions, be issued. Kindly advise your decision in these matters at your earliest convenience.

Very truly yours,

Carmine R. Procassini
CARMINE R. PROCASSINI, P.E.

U.S. Department of Environmental Conservation
New York Field Office
New York, New York 10008

As indicated on the
attached copy of the
two locations at
Avalon-Station

Attention: Gordon
Regional Office

Dear Mr. Colvin:

Reference is made to my discussion with you on June 1, 1968 concerning the application for "W" permits at South Avenue and South Street, New York City. In order to issue these permits, it is necessary for you to provide a site plan showing the location of each property, as well as the location of the permit area. The site plan should also show the location of the permit area in relation to the street, and the location of the permit area in relation to the adjacent properties. The site plan should be submitted to the Regional Office for review and approval.

Attached please find a copy of the site plan for the permit area at South Avenue and South Street, New York City. The site plan shows the location of the permit area in relation to the street, and the location of the permit area in relation to the adjacent properties. The site plan is being submitted to the Regional Office for review and approval. If you have any questions regarding the site plan, please contact the Regional Office at the address listed above.

Very truly yours,
Gordon
Regional Office
