Re: Joseph Alpert v. NYSDEC

Dear Mr. Oliva:

I am enclosing a revised site plan for the Alpert property and a response to the technical comments on the site plan. These documents have been revised to take into account your latest comments.

I believe that there are no further technical issues relating to this matter since we have addressed all of the technical concerns. Please let me know if you concur. If that is the case, then we should discuss how to finalize the stipulation.

Sincerely,

Charles S. Warren
